## BEST PRACTICE – OUTDOOR ACTIVITIES COMBINED WITH USE OF DIGITAL TOOLS

Welcome to this informative handbook that explores the integration of digital tools in outdoor sports. Within these pages, you will find a comprehensive examination of the state of the art in outdoor sports, the benefits that digital tools offer, and real-world insights from Austria, Romania, Czech Republic, Italy, and Spain.

Outdoor sports have always captivated individuals, providing a unique connection to nature and opportunities for physical and mental challenges. However, the rapid advancement of technology has brought about significant changes, reshaping the way we approach and engage in outdoor activities.

## NEW OUTDOOR ACTIVITIES COMBINED WITH THE USE OF DIGITAL TOOLS

The guide is a comprehensive tool designed to offer creative outdoor activities that includes digital resources. This initiative was created especially for youth workers and was developed in partnership with partners from Austria, Spain, Italy, Czech Republic and Romania. The exercises in this book are designed to provide a dynamic learning environment that integrates digital technology and outdoor sports concepts, all while engaging and educating teens. The activities featured in this guide have been carefully crafted to engage and educate teenagers while fostering a dynamic learning environment that incorporates the principles of outdoor sports and digital technology.

## Guidebook for Mobile Apps Promoting Outdoor Activities

This guidebook is an integral part of an ambitious European Union project aimed at fostering motivation and active engagement of young people in outdoor sports through non-formal education (NFE) activities.

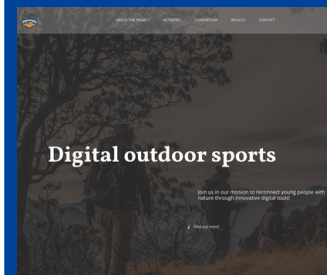

This guidebook will provide you with a comprehensive overview of the DISPO project, its objectives, strategies, and the digital tools we are developing. We hope that it will serve as a valuable resource for all those interested in promoting outdoor activities among young people and leveraging digital tools for positive impact.

## Mini-Documentaries

The website serves as the main interface with stakeholders on the work and achievements of the project, where you can find all the results of the project and download all the tools created.
